COMPUTER SCIENCE ENGINEERING STUDENT | SOFTWARE DEVELOPER Computer Science Engineering student and Backend Developer Intern with a strong foundation in C++, Object-Oriented Programming (OOP), Data Structures, Algorithms, and problem-solving. Hands-on experience in software and web development using Python, FastAPI, JavaScript, React, Node.js, SQL, and Git. Experienced in building practical projects and contributing to real-world software development environments. Passionate about designing reliable software, solving complex problems, and continuously strengthening software engineering skills.

Skills

- **Programming & Core CS**: C++, Python, C, Object-Oriented Programming (OOP), Data Structures & Algorithms, Problem Solving
- **Backend Development**: Python, fastAPI, Node.js, Express.js, REST APIs
- **Frontend Development**: JavaScript, React.js, Next.js, TypeScript, HTML, CSS, Tailwind CSS
- **Databases**: MySQL, PostgreSQL, MongoDB
- **Cloud & DevOps**: Docker, AWS EC2, AWS S3, AWS Lambda, AWS CloudWatch, AWS IAM
- **Development Tools**: VS Code, Git, GitHub, Postman
- **Competitive Programming**: Codeforces, LeetCode, HackerRank

Work Experience

Aerilon Tech LLP | Backend Developer Intern | May 2026 – July 2026

- Contributed to TurfClan, a sports-technology platform, using React, TypeScript, Next.js, and Tailwind CSS.
- Developed the Admin Dashboard – Facilities Listing module and built reusable React components for buttons and list displays.
- Worked with REST APIs using Postman, testing authentication, tournament, partner, facilities, booking, and user endpoints and debugging frontend–backend interactions.
- Used Chrome DevTools to investigate application issues across Console, Network, and Elements, performing root-cause analysis and validating fixes.
- Followed an Agile development workflow using Git/GitHub, feature branches, local testing, pull requests, and code reviews.
- Started with e-commerce application testing and bug reporting, then adapted to the TurfClan codebase and contributed to dashboard development and sports-association data integration.

PROJECTS

BirdRescue – Bird Rescue & Assistance Platform | React.js • JavaScript • HTML • CSS

- Developed a responsive React.js web application for bird rescue, emergency assistance, rehabilitation, and community awareness.

- Built reusable React components for navigation, rescue services, emergency assistance, information cards, and responsive layouts.
- Implemented an injured-bird reporting workflow with user details, location, bird condition, description, image upload, and discovery time.
- Implemented interactive forms, navigation, image uploads, dropdowns, and responsive UI components to support end-to-end user workflows.

Muniva AI – GenAI Spiritual Guidance Platform | FastAPI • Python • Next.js • TypeScript • LLM • RAG • Vector Database

- Developing a GenAI-powered spiritual guidance platform supporting Kundli, Horoscope, Sacred Texts, Meditation, Spiritual Q&A, and Numerology experiences.
- Built a responsive Next.js + TypeScript frontend with authentication, personalized user flows, Kundli generation, saved Kundlis, and AI conversational interaction.
- Developed FastAPI REST APIs for user management, application workflows, spiritual knowledge access, and integration with AI services.
- Implementing a RAG architecture using document ingestion, chunking, embeddings, vector similarity retrieval, and context-aware prompt construction to ground LLM responses.
- Integrating an LLM conversational layer with conversation context and retrieved knowledge to generate personalized, relevant, and grounded responses.

EDUCATION

JK Lakshmipat University, Jaipur
B.Tech — Computer Science Engineering — Jul 2024 – Jul 2028

The Castle Convent School, Jaipur
Class XII — 2023 – 2024

The Castle Convent School, Jaipur
Class X — 2021 – 2022

ACHIEVEMENTS

- **Top Performe**r — University Coding Contest: Recognized among the Top Performers for consistent performance in weekly competitive programming contests.
- **Codeforces**: Achieved a 1036 contest rating through competitive programming contests.
- **HackerRank**: Achieved a 4-star rating in C++.

CERTIFICATIONS

- **Red Hat System Administration I (RH124 - RHA):** Completed Red Hat System Administration I training.
- **Python with AWS Cloud Training**: Completed 20+ hours of hands-on training covering Python, AWS EC2, S3, Lambda, CloudWatch, IAM, AWS CLI, and Boto3.
- **Database Management System Part - 1 —** Infosys Springboard | Nov 2025
